

City of Boulder RESIDENTIAL EnergySmart Program-to-Date Progress Report

This page summarizes progress to date since October 2010 in achieving the goals of the EnergySmart services toward the Department of Energy Better Building Grant awarded to Boulder County. The Better Building Residential EnergySmart goal was to have 10,000 homes participate in the program by May 2013. EnergySmart was conceived and developed through a joint effort of Boulder County Commissioners' Office of Sustainability, Boulder County Public Health, City of Boulder and City of Longmont. PROGRAM PROGRESS

RESIDENTIAL UNITS PARTICIPATING IN ENERGYSMART

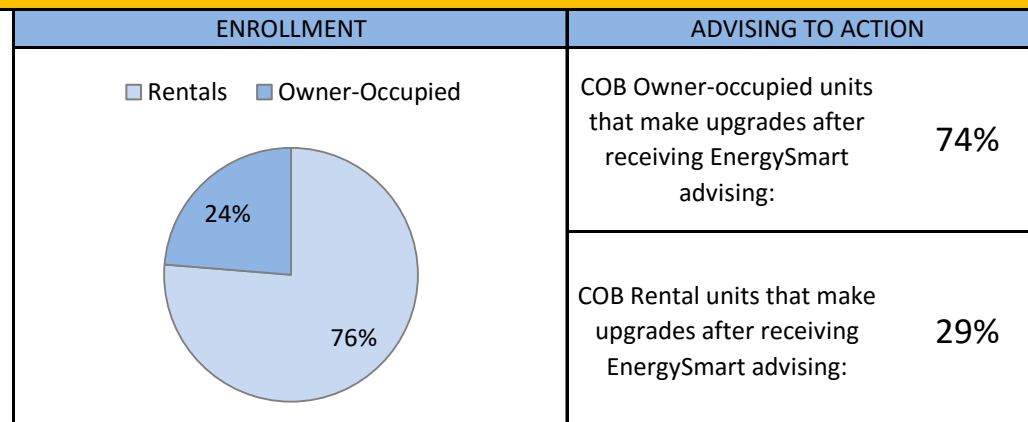

IMPACT

WORK COMPLETED	LEVEL OF INVESTMENT	DEEMED ANNUAL SAVINGS*				Electricity savings to date from residential EnergySmart are equivalent to taking 1,565 cars off of the road!
Number of Quick Installs	Private Investment	kWh	Therms	Costs	mtCO ₂	
37,863	\$12,346,499	3,263,061	712,780	\$832,380	6,402	
Number of Upgrades	Total Rebates Paid					
7,665	\$1,609,874					

HIGHLIGHTS

- 42% of participants in EnergySmart across Boulder County cited energy cost savings as their primary reason to participate. 45% cited Smart Regs as their primary reason to participate.
- Air sealing and attic/ceiling insulation are still the top two upgrades overall, and 5 solar PV projects were completed during Q3 2016 in Boulder.
- Each dollar spent on residential energy efficiency rebates from the EnergySmart partners leverages about \$7.67 in private investment. This ratio has consistently improved each quarter.
- County-wide 14,709 total residences are enrolled.
- From July 2016 - September 2016 there were 60 City of Boulder owner-occupied properties enrolled in EnergySmart providing an average of around 20 per month

* Includes deemed savings from upgrades and quick installs.
